

Godfrey Hirst Carpets - Ahead of the field on Oaks Day

Showcasing the latest products from the Designer Jet range and some stunning custom wall hangings printed by the newly installed Designer Jet printer, Godfrey Hirst celebrated Oaks Day 2010 in style and colour.

This year's colour scheme included the striking new, geometric patterned carpet tile 'Quadran' in charcoal, on the floor with brilliant white furniture and colourful roses.

The real talking point however were the fabulous wall hanging prints hung around the marquee. Guests were amazed with their quality and how life like they looked.

Fortunately, the rain managed to hold off for the serious (and not so serious) punters who were out on the balcony cheering their horses to victory. There were some interesting strategies for choosing horses, with jockey colours and 'gut feelings' being the most popular and a few 'in-the-know' turning some small bets into big wins.

A big thank-you to guests and staff for making the event a great day.
