

Oaks Day - Breakfast at Tiffany's Style

Godfrey Hirst was delighted to again host residential and commercial guests in their Oaks day marquee.

This year was celebrated in Breakfast at Tiffany's style complete with french chandelier, diamond ice sculpture and of course, custom "Tiffany blue" carpet tiles on the floor.

Once again the Designer Jet printer was used to create two large wall hangings printed with iconic New York and Breakfast at Tiffany's imagery.

Congratulations to all lucky punters and a big thank you to guests for making the day such a success.

Made from carpet!
