Every timber floor is different, and will always vary from any images or samples with colour, grain and textural variation. The illustrated patterns and colours/samples are only an image/example and not a full overview of all the different nuances within the natural unique design of a timber floor. Colour appearance can also vary depending upon the type of light under which an image/sample is viewed and light sources where the flooring is installed. For a representative view of the surface structure and variation of a board, take a look at the large samples on display and ask your retailer for more advice.

# Chateau Oak

Inspired by the provincial homes that dot the French countryside, Chateau Oak is the embodiment of elegant, humble comfort. This stunning engineered timber floor highlights the authentic texture and grain of real French Oak. The unique pattern features of each board is accentuated by subtle micro bevelled edges, and finished with a light brush to bring charm and warmth to your floor.
